

Save the unicorns from the  
Thousand-armed Robot Octopus by  
pulling back his tentacles before he  
grabs the unicorns. You must hurry  
because you only have one minute!  
However, be careful not to knock the  
unicorns over!

Don't let the genetically modified  
salamander with a face just like  
George Clooney track you down!  
Blow up your balloon and blow him  
over before he gets you! You only  
have one minute to blow all his  
clones down!

Fight off the Marizpan Girl at the Silver Lake Lounge by stacking the yellow disks on top of your head to make the tallest horn you can. You will need to hurry because she is on her way.

You only have one minute!

The Rockabilly Worm is after you  
and the only way to beat him is at his  
own game. See how fast you can inch  
like a worm!

You are getting closer to the Gummy King and he wants to stop you. On Planet Caeruleus he plans to drop 5 balloon bombs on you. You have to keep them all up in the air to keep them from exploding. But that's not all! At the same time, you have to set off the land mines he has scattered all over the planet.

One Planet Purpureus, you will have to show how good you are at being a unicorn before you are allowed to pass.

Let's see how good you are at swishing your tail!

**PLANET**

**RUBER**

A decorative border of orange dots surrounds the text. The dots are arranged in a grid, with 9 dots in each row and 9 dots in each column, forming a rectangular frame around the central text.

**PLANET
